

# Multi-outlet power cord

## Schuko & World General

It offers customer the flexibility of power configuration all the way. It also has improved the unrealistic and space problem of using large number of Y-tap plug to industrial plug in 16A configuration. It using pre-established techniques, user can pre-established 12M to 18M Multi-outlet power cord by taking 2M / 3M in an exit way, so that it will be able to let the cable layout into points on the TRUSS. Or the provision of a number of musical instruments on stage the rapid supply of power

**ITEM RULE:**

**3P-DE-12ME-6OUT**

4/5/6/7/9out outlet number

Plug type:  
Normal type:schuko16a plug  
E : IEC 60309 CEE 16A 1P+E+N  
U : U.S.A NEMA 5-15

12m : cable total length

Multi-outlet socket  
DE : Schuko (euro)  
DG : TYPE1 (AS/NZS 3112) (CHINA)  
DW : world general type  
D8F: 3P 16598FP-1

3P 3phase power supply series

**3P-DE15M-5OUT**

Length:15m  
Outlet:5  
Plug:Schuko 16a

**GREAT DESIGN:**

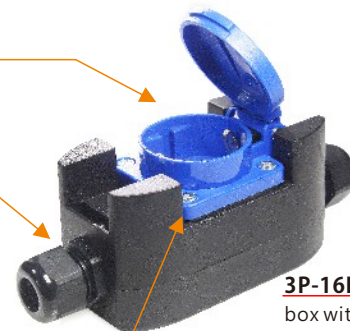

As for the user to consider, We take the Flip-cap socket socket IP44 waterproof capacity Socket direction parallel to the cable, to ensure that is not easily pulled out and can be fixed with cable ties

The cable is fastened with a high-strength cable gland, To prevent the core line and skin peeling problems

Flip-cap connector, in the closed and put the process may be friction with other objects, so we designed four "bastions" and arcs, The shell uses high-strength nylon mixed glass fiber can guarantee the connector durable!

The connector is a standard product with V0 flame retardant rating
