SREXACT

Optical Fiber Cable Reel

Global Local Easy-maintenance All Around The World
Adaptable to Third-party Media Converter
Easy to Use Fantail

- Multi-core Integrated, 4 to 6 cores per single reel.
- Meet the requirement of duplicated control network.
- 62.5μm multi-mode fiber accepts single-mode and multi-mode SFP.
- Dirty fantail and broken can be easily replaced, to ensure system security.
- Jump out the tranditional patch cors design.
- Use solder with "MULTI CON" or flat box to keep the optical fiber storage.
- Provide patch cord to adapt different machines.
- Communication standard LC connector.
- Communication standard flange interfacing link.
- With cable reel 150 and 200m for option.

Option			Flight Case				

※ Use Lmitation:
    Multi-mode: Between fiber with SFP, without other patch cord, the longest 240m (conservatively recommended value).
    Single mode: Between fiber with SFP, has twice third-party connection (TXRX each time) 350m~10km (conservatively recommended value).
